Urgent Field Safety Notice - Urgent Medical Device Recall VICI and VICI RDS™ Venous Stent Systems

Dear «Users_Name»,

Boston Scientific Corporation (BSC) is voluntarily initiating a global removal of all lots/batches of VICI and VICI RDS™ Venous Stent Systems. BSC has received reports of stent migration after implantation. The preliminary investigation indicates that these products meet specifications. The company is conducting further investigation to determine any factors which may have contributed to these occurrences.

Some stent migrations have led to the need for endovascular intervention to secure or retrieve the stent. In more severe cases, the stent has embolized to the heart, resulting in the need for surgery.

BSC recommends that patients who have had VICI venous stents placed continue with their regular or routine check-ups, and follow-up care. BSC does not recommend that any additional action be taken if patients are not having any complications or symptoms. Please note that as BSC's investigation into this issue is ongoing, there may be a follow-up FSN issued to highlight additional recommendations that may be warranted depending on the findings and/or outcome(s) from/ of our ongoing investigation.

Our records indicate that your facility received some of the concerned product. The **table below (Attachment 1) provides a complete list of all affected products**, including Product Description, Material Number (UPN), GTIN and Lot/Batch numbers and expiry date. Please note that **only the devices listed below are affected. No other Boston Scientific product is involved in this Field Safety Notice.**
