«Customer Name»

Dear Valued Customer,

Avanos Medical Inc. is hereby issuing a voluntary Field Safety Corrective Action (FSCA) involving certain lots of the Avanos* Ballard* Oral Care products that were distributed with incorrect expiration dates on the label. The intended use of these products is to apply a mouth moisturizer as well as wiping the lips, mouth, teeth, and soft tissue of patients who require oral hygiene assistance.

There have been **no incidents** of injuries or deaths associated with incorrect expiration dates reported to Avanos Medical, Inc. to date.

The lot numbers and codes with incorrect expiration dates are listed in Appendix 1 (Table 1, Table 2 and Table 3).

REASONS FOR THE VOLUNTARY FSCA

This Field Safety Corrective Action has been initiated due to certain lots labeled with incorrect expiration dates. The labeled expiration dates of impacted products were printed with a 10-year expiration date however, the products have an established shelf life of 5 years.

RISK TO HEALTH

There are currently **no expired products** among the impacted lots, therefore there is no immediate patient risk and all products listed in **Appendix 1** are **safe to use on patients**. However, the impacted products should not be used past their actual expiration dates.

Avanos Medical, Inc. is committed to patient safety and improving patient outcomes, which is why this Field Safety Corrective Action has been initiated.

The hazardous situation with the expired product is the potential for component breaks/detaches. The harm for this situation is the potential for minor choking hazard.

The purpose of this Field Safety Notice is to make sure that you are aware of the correct expiration dates of impacted products so you can ensure that they are safely used on patients prior to expiring. There is no need to return impacted product to Avanos.
