URGENT FIELD SAFETY NOTICE

Recall - Market removal of Disposable EMR KIT and Distal Attachments

DISPOSABLE EMR KIT: K-001, K-002, K-003, K-004, K-011, K-012

Lot: please refer to Attachment 1

Distal Attachment (Please refer to Attachment 1): MH-462, MH-463, MH-464, MH-465, MH-466, MH-483, MH-587, MH-588, MH-589, MH-590, MH-591, MH-592, MH-593, MH-594, MH-595, MH-596, MH-597, MH-598, MAJ-289, MAJ-290, MAJ-291, MAJ-292, MAJ-293, MAJ-294, MAJ-295, MAJ-296, MAJ-297, MAJ-663, MAJ-664, MAJ-665, MAJ-666

Lot: please refer to Attachment 1

Attention: Endoscopy Department, Risk Management Department

Dear Health Care Practitioner,

Olympus has become aware of an issue that requires your attention. This letter pertains to the DISPOSABLE DISTAL ATTACHMENT included in DISPOSABLE EMR KIT and Distal Attachment referenced above. The DISPOSABLE DISTAL ATTACHMENT has been designed to be attached to the distal end of the endoscope. It is to be used in combination with electrosurgical snares for endoscopic mucosal resection within the gastrointestinal tract. The distal attachment is also suitable for use in maintaining a suitable depth in the endoscopic field of view. The Distal Attachment has been designed to be attached to the Distal End of an Olympus endoscope to facilitate endoscopic therapy.

The products referenced above contain di-2-ethylhexyl phthalate (DEHP). Olympus has previously announced on the labeling that the product contains DEHP.

Since Olympus has confirmed that alternative products can be provided, Olympus has decided to ask our customers to cease using the subject products and to further remove them.

Risk to Health

In general, potential patient harms associated with the use of plastic products containing DEHP include: chemical exposure, hypersensitivity/allergic reaction, endocrine disruption, reproductive and developmental toxicity and carcinogenicity. Long term DEHP toxicity may occur if a distal attachment inadvertently becomes a retained foreign body with resultant leaching over time. Olympus has not received any reports of these harms occurring from the use of our products.

Action steps to be taken by the end user:

Olympus has determined based upon our distribution records that your facility is in possession of one or more affected devices with a Lot number shown in Attachment 1. Olympus requires you to take the following actions:

1. Immediately assess any product you have to identify the product number with affected lot listed in this communication, **cease use of product and quarantine any affected product**. The image below depicts the area where the lot number is identified. The lot# is on the Carton box and Pack. Please refer to the Attachment 2 for the identification of the subject products.
2. Ensure all personnel are completely knowledgeable and thoroughly trained on the content of this FSN.
3. If you have further distributed this product, identify your customers, and forward them this Field Safety Notice. Please appropriately document your notification process and let us know the end-customer feedback accordingly.
4. Indicate on the Reply Form that you have received and understood this Field Safety Notice by filling out and returning the completed enclosed Reply Form back to your local Olympus representative **XX.XX.XXXX** latest by **XX.XX.XXXX**.
5. Your local Olympus representative will contact you to arrange return and appropriate reimbursement. Olympus will issue a Return Material Authorization to return any affected product at no charge to you. Olympus will issue a credit to your facility for your affected product.

Olympus requests that you report complaints, including patient physical condition suspected to be affected by DEHP, to Olympus. Please report complaints to **[local facility complaint reporting contact]**. **[If applicable:]** Adverse events experienced with the use of this product may also be reported **[local competent authority]** by **[method]**.

Olympus regrets any inconvenience caused and fully appreciates your prompt cooperation in addressing this situation. If you require additional information, please do not hesitate to contact me at **[phone number]** or **[e-mail address]**.

Sincerely,

[SIGNATORY]

Attachment 2 – Identification of the subject product

1) Disposable EMR Kit

- You can find the product name and Lot number on the carton box.

Carton box

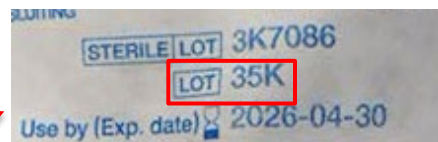

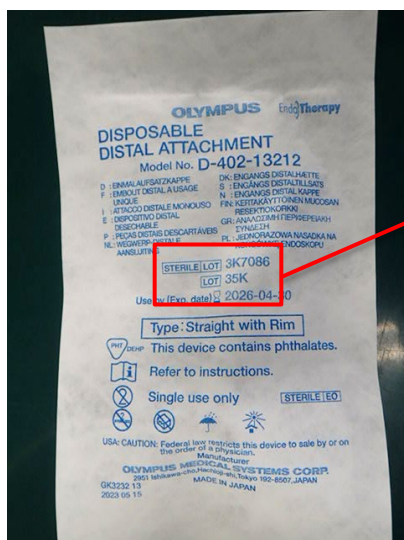

Model No.

Lot

- You can find the product name and Lot number on the sterile pack.

Sterile Pack

Lot

2) Distal Attachment

- You can find the product name and Lot number on the carton box.

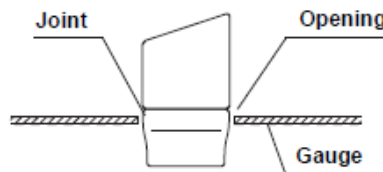

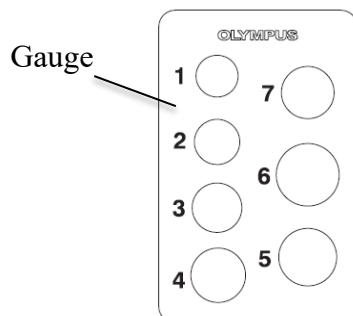

Carton box

- If identification information cannot be obtained from the carton box, please check the type and size of the product using the Gauge^(*1).

(*1)

The Gauge provided in the standard set has seven Openings in it, each number is inscribed with an order of 1, 2, 3, 7, 4, 5, 6 which starts from the smallest to the largest in diameter. These numbers match the Gauge Numbers of the following Tables. Fit the Distal Attachment into the Gauge using the above mentioned order (smallest to largest). By passing the Joint of the Distal Attachment through the Gauge find the smallest and passable Gauge Number for the Distal Attachment. Then find the type of the Distal Attachment by confirming the shape of the distal part of the attachment.

Gauge number	1				
Model No.	MH-462	MH-587	MH-593	MAJ-289	MAJ-295
Shape					
Type	Straight	Oblique	Straight with Rim	Oblique with Rim	Wide Opening Oblique with Rim
